

Ofsted visited us in June 2021 and said about Oakwood Community school:

“Leaders and staff are passionate about their work. They are ambitious for all pupils to do well, have successful lives and make positive contributions to society.”

“Staff know the pupils well. They are encouraging and positive role models. They know their work is important and sometimes challenging.”

“Pupils understand the importance of respecting others.”

To be even better we will make sure that:

- The curriculum is planned and sequenced
- We check pupil starting points, match the work to pupil needs and use assessment to baseline and track pupil progress
- We will develop pupil reading, including the use of phonics
- We will prevent & manage pupils behaviour with consistency, through staff training
- We will promote personal development through the study of culture, religion and PSHE
- The Proprietary Board will hold leaders to account for the quality of education
- We will increase the pupil roll
- We will improve home-school communication.
- We will develop Forest Schools

... and we will ALL keep doing our best every day!
